

# AEEE WEBINAR SERVICES 2022

Reach your target audience among Energy Efficiency equipment & service providers, policy makers, industry, SMEs, financing community, academic institutions and energy end-users quickly and affordably via AEEE Webinar interface. AEEE will enable you to:

- **Plan and present Webinars on diverse themes relating to Energy Efficiency, Clean Energy and Sustainability**
- **Create and host your own professional Webinars and Training Courses**
- **Utilize the integrated Audio-Video facility to talk to 100 people at a time – right from your Desktop or Laptop from anywhere in the world**

## Get in touch with AEEE to design and develop your own Webinar package

Over 14 years, AEEE has successfully hosted webinars which brought experts and thought leaders from diverse areas of Energy Conservation and Efficiency. AEEE is now extending webinar services to its members, EE organizations and other interested parties, for a nominal fee. AEEE is well networked and has a robust database of manufacturers, end-user groups and other stakeholders.
